- High frequency operation

### Description

Dual centre tab Schottky rectifier suited for high frequency switch mode power supply.

Packaged in TO-220FPAB, TO-220AB, TO-247, I<sup>2</sup>PAK, and D<sup>2</sup>PAK, this device is intended to be used in notebook and LCD adaptors and desktop SMPS. In these applications the STPS30H60C provides a good margin between the remaining voltages applied on the diode and the voltage capability of the diode
