

STP90NS04ZC

N-channel clamped 5mΩ - 80A TO-220
Fully protected SAFeFET™ Power MOSFET

Features

Type	V _{DSS}	R _{DS(on)}	I _D
STP90NS04ZC	Clamped	< 6mΩ	80A

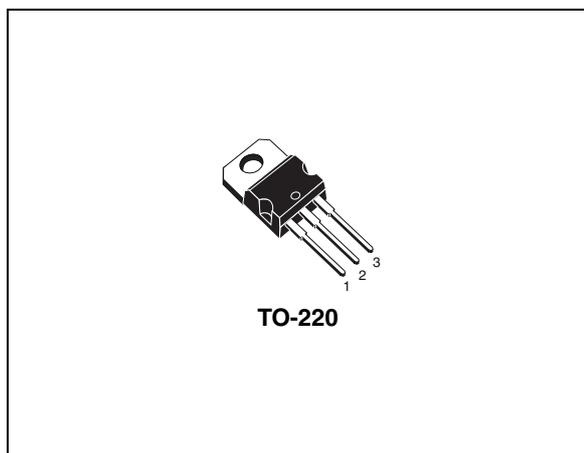

- Low capacitance and gate charge
- 100% avalanche tested
- 175°C maximum junction temperature

Description

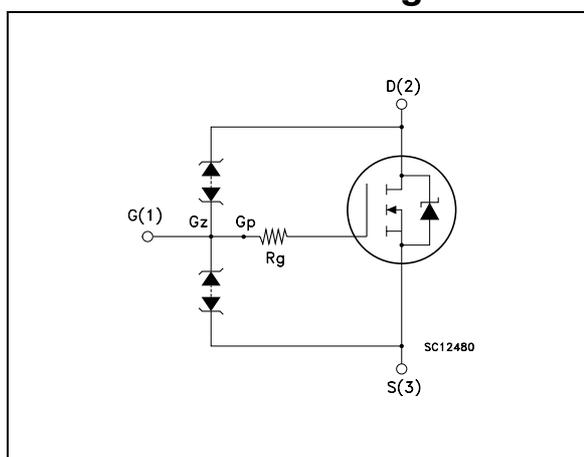

This fully clamped Power MOSFET is produced by using the latest advanced company's Mesh OVERLAY process which is based on a novel strip layout. The inherent benefits of the new technology coupled with the extra clamping capabilities make this product particularly suitable for the harshest operation conditions such as those encountered in the automotive environment. Any other application requiring extra ruggedness is also recommended.

Applications

- Switching applications
 - ABS, solenoid drivers
 - Motor control
 - Dc-dc converters
